SPEAKER BIOS:

Keith Sacre

Keith has over 20 years experience in local government as nursery, parks and operations manager. He then spent 11 years with Notcutt's Nurseries with responsibility for tree sales to local authorities and other trade outlets. He now works as Sales Director with Barcham Trees, the largest container tree nursery in Europe. Keith is a member of the *Institute of Chartered Foresters*, a *Chartered Arboriculturist* and a Trustee of the Arboricultural Association. He has a BSc in Social Science and BSc (Hons) in Arboriculture from Myerscough College. He is currently studying part-time for an MSc in Urban Forestry and Arboriculture at Myerscough College.

Ian Phillips

MRTPI, CMLI

Ian is an independent consultant based in the South East of England. He has interests in promoting good landscape design and management, green infrastructure, community engagement and influencing/shaping policy. Ian has 25 years' experience in local government, private and NGO sector planning and planning related landscape and tree work. He represents the Landscape Institute on many forums including BSI Tree Committees, and is Chair of the Tree Advice Trust. He's also an experienced presenter and facilitator – recent presentations can be viewed on his website (www.ianphillips.eu).

 *As President of the RIBA I welcome this clear and comprehensive guide by the Trees and Design Action Group* 

Angela Brady, President,
Royal Institute of British Architects

Russell Horsey

BSc Joint (Hons), M.F.C.

Russell has recently been appointed as the deputy director of the Institute of Chartered Foresters. He has over 12 years experience as a practicing urban forester within local government and voluntary sectors, having been highly successful in pushing the trees agenda at Bristol City Council. Russell is a graduate of the Universities of Brighton (UK) and Toronto (Canada), gaining a Masters in Forestry Conservation with a specialism in Urban Forest Management in the latter. Russell's strong combination of education and experience allow him to bring a unique and successful approach to arboriculture and urban forestry management.
